

FATHER MULLER COLLEGE OF NURSING

(A Unit of Father Muller Charitable Institutions)

Affiliated to Rajiv Gandhi University of Health Sciences, Karnataka, Bangalore

Infrastructure and Learning Resource Committee

Nursing Foundation laboratory

The Nursing Foundation laboratory is the area where the students perform all the nursing procedures prior to their exposure to the hospital setting. It is here that the students study the basic nursing procedures/ skills with the help of the clinical instructors. These will help the students to reduce the stress and fear of the hospital environment. Aims of the lab are to increase awareness among the students in the field of medicine to get a positive understanding between the doctor, nurse and paramedics in treating patients as well as for providing practical knowledge as a demonstration in the institutional set up itself without any barrier. The faculty use this lab for various demonstrations of nursing procedures to the students. The activities carried out in the lab are as follows

- Demonstration of procedures like Basic Nursing Care, Care Of Hygienic Needs, Elimination Needs. Advanced procedures like CPR, Positions, Comfort devices, physical assessments.
- OSCE/ OSPE
Redemonstration of procedures by the students
- First aid and bandaging
- Practice of procedures by the students
- Briefing of sessions or procedures before the procedure.
- Interdisciplinary classes

2014-15

12/18/2014	Med Grad	27	3-4 pm	I.v. Infusion demonstration
12/18/2014	Med Grad	27	3-4 pm	I.v. Infusion demonstration

FATHER MULLER COLLEGE OF NURSING
(A Unit of Father Muller Charitable Institutions)
Affiliated to Rajiv Gandhi University of Health Sciences, Karnataka,
Bangalore

COMMUNITY HEALTH NURSING LABORATORY

Community Health Nursing (CHN) is the community oriented primary health care programme and the integration of community medicine with the primary health care of individual and community. The aim of the CHN lab is to train the students render comprehensive care to the individual family and community and develop centre of understanding of rural community health management. The activities carried out in the lab are as follows:

- Orientation of community postings
- Community bag distribution to the students for postings
- Demonstration of procedures like
 - Bag-technique
 - Nutritional assessment
 - Anthropometric class
 - Urine sugar and albumin test
 - Hb analysis
- Case study presentations
- Survey study of the community
- Family care plans
- AV AID preparations

FATHER MULLER COLLEGE OF NURSING

(A Unit of Father Muller Charitable Institutions)

Affiliated to Rajiv Gandhi University of Health Sciences, Karnataka, Bangalore

MCH LABORATORY

Provision of nursing care to mother and child is an important nursing responsibility for which students are trained during their training. MCH Lab provides a learning atmosphere to the students for developing skills before performing procedures in the hospital. MCH Lab is divided into two sections: - Obstetrics and Gynaecology Section and Paediatric Section. The aim is to appreciate the Concepts and principles of midwifery and obstetrical nursing. The activities carried out in the lab are as follows:

- Antenatal and Postnatal Exercise Demonstration
- Normal labour mechanism Demonstration
- Abnormal labour mechanism Demonstration
- Antenatal Abdominal palpation
- Postnatal Assessment
- IUD Insertion
- Placental examination
- Breech mechanism
- OSCE/ OSPE
- Explanation and demonstration of OBG Instruments and drugs
- Preparation of AV aids
- Practicing demonstration female pelvis, fetal skull, OBG Instruments and drugs by the students

FATHER MULLER COLLEGE OF NURSING

(A Unit of Father Muller Charitable Institutions)

Affiliated to Rajiv Gandhi University of Health Sciences, Karnataka, Bangalore

NUTRITION LABORATORY

Nutrition laboratory is primarily focused on assessing the interplay between diet and disease risk factors. The Nutrition laboratory is where the students learn to prepare normal and therapeutic diet. Students learn to prepare different types of exhibits for health education related to Nutrition and diet therapy. Under the guidance of a qualified dietitian/ teachers. Students also use this lab to prepare different types of exhibits required to conduct various health education and awareness Programs. The activities carried out in the lab are as follows:

- Cooperative learning
- Diet preparation for nutrition day/ health education/ health expo ect.
- Nutrition day
- AV aid preparation on nutrition topic

2016-17

FATHER MULLER SIMULATION LAB

Medical education has undergone a paradigm shift from a teacher focused curriculum to a learner focused and patient centred curriculum. Patient safety is the ultimate goal of every healthcare system and clinical training through simulation is proving to be one of the most important, innovative, and relevant modalities for achieving that goal. Father Muller simulation centre provides one of the most advanced medical education training set up and comprehensive Simulation & Skills Centre at Mangalore. Established in late 2015 and inaugurated in March 2016, the spacious centre houses simulators and skill trainers from the world leaders in the field of simulation technology like CAE Healthcare and other leading global manufacturers of Skill trainers. Committed to evidence-based simulation training, the Father Muller Simulation and Skills Centre (FMSSC) is dedicated to patient safety. The simulation training program does not replace clinical training and does not guarantee clinical competency. It serves to enhance the performance of the learner in a safe and supervised realistic setting, thereby improving clinical outcomes. The activities carried out in the lab for nursing students are as follows:

- CPR – Adult/paediatric
- IV canulation and infusion
- Catheterization
- Bladder wash/ irrigation
- Normal and abnormal labour
- PPH
- PV examination
- Body mechanics- shifting and lifting of patient
- Asthama simulation
- Mechanical ventilation/ ET suction
- Tracheostomy
- RT tube insertion and feeding
- Airway suction
- Crashcrat/ MI/Code blue
- Wound dressing
- Trauma simulation
- Psychiatric emergencies
- Simulation on Communication
- Shock scenario.
