## 4. Analytical skill development

**Scenario based learning**

February 2018

A Scenario based learning was conducted on 24-02-2018 for II BSc Nursing students on Topic "Myocardial Infarction" by Sr.Judy SIC, Lecturer, and department of Medical Surgical Nursing. "Scenario-based learning is a methodology which aims to promote deep learning and awareness by involving participants in realistic critical incidents where they are forced to consider a wide range of factors, make decisions and reflect on the outcomes and what they have learned from this". A scenario on Myocardial infarction was created by Sr.Judy and asked the students to solve the problems. The students worked their own way through this problem, which they are expected to solve. In this learners applied their prior experience, subject knowledge, critical thinking, and problem solving skills in a risk-free and "close-to real-world" environment. This allowed them to acquire the necessary skills needed to deal Myocardial Infarction at work. At the end a debriefing session was conducted along with the medical surgical nursing faculty, where students critically analysed the scenario. This method of learning was greatly appreciated by the students.

**GUEST LECTURE ON HEALTH AND FORGIVENESS**

A session on Health and Forgiveness was held on 28<sup>th</sup> August 2017 in Rajath Bhavan at 2pm. The resource Person was Rev.Fr Clifferd, professor of St.Joseph's seminary Jeppu, Mangalore. The session began with prayer song by 3<sup>rd</sup> year Bsc (N) students.

Rev. Fr Clifferd introduced the topic by quoting the words of Mahatma Gandhi "forgiveness is the attribute of the strong". He emphasised on anger and its management and explained with few examples how anger affects the people in various ways. He taught us that, though forgiveness is hard, it brings peace to one's mind and helps to prevent the physiological problems. Moreover anger and unforgiveness give rise to headaches, gastritis, disturbed sleep and alters the physiologic activities..

To conclude, this was really a valuable session to us and we learnt that being healthy doesn't mean eating well and working out but which includes having a healthy mind, free from pessimistic thoughts and being spiritually strong. Fr Clifferd made us not only to laugh with his light hearted jokes but also he taught each one of us how important it is to forgive and how it correlates with health. Spirituality makes a human being healthy and helps to lead a meaningful life. The programme was organised by SNA. A total of 200 students benefitted from the programme
