

Innovational Values and Best Practices Committee

Best Practice - 2019-2020

1. Title of the Practice

Innovative Online Teaching- Learning Methods

2. Objectives of the Practice

The sudden impact of COVID-19 on education led to changes in method of teaching and learning. The main objective in implementation of innovative teaching methods was to reduce the monotony of lecture method and promote student centric approach in attaining learning outcomes.

3. The Context

Online education has radically changed after the impact of covid-19. Use of innovations in online teaching methods can help students to be motivated and excel in various dimensions. Hence apart from lecture methods of teaching, the following innovative forms of education were implemented

- Flip classroom method
- Virtual Nutrition practical
- AV aid presentation
- Online Yoga program

4. The Practice

The above mentioned methods of online teaching were undertaken by departments of OBG Nursing, Nursing Foundation and Nursing education. Institutional Values and Best practice committee organized yoga program for students of all UG and PG batches interested in participating in yoga. Flip class was implemented for 3rd year BSc (N) and 2nd year PBBSc (N) students on fetal skull and female pelvis. 1st year BSc (N) and 1st year PBBSc (N) students

prepared diet based on the topics given to them as Nutrition practical requirement. The students creatively prepared videos and merged them as one presentation. The 2nd year BSc (N) students individually prepared videos on different types of AV aids in the form of short videos.

5. Evidence of Success

The students feedbacks for all the methods implemented were collected and every student provided positive feedback in terms of learning ability and learning outcomes. The enthusiasm of students and use of technology in creating videos and presenting virtually was appreciable. The adaptation towards change in teaching and learning methods form base in evolving more effectively in any form of education.

6. Problems Encountered and Resources Required

There were no problems encountered due to this initiative.

Students expressed lot of interest and enthusiasm in performing the videos. These activities were done at home atmosphere where students learnt to use available resources and use them effectively.
